

International Cycling Conference 2017

19 – 21 September, Germany Mannheim, Baroque Palace

Umwelt Bundesamt

Für Mensch & Umwelt

International Cycling Conference 2017, 19 – 21 September Mannheim / Germany

The International Cycling Conference (ICC) is an interdisciplinary and international conference organized by the German Environment Agency (UBA) together with our partners from European co-funded PASTA project (Physical Activity through Sustainable Transport Approaches) and THE PEP (Transport, Health and Environment Pan-European Programme) as well as the City of Mannheim, ECF, Difu and GIZ. The ICC is a three-day event organised to highlight the role of active mobility from an international perspective. The event will focus on synergies in transport planning, health care, environmental quality, economic benefits, as well as social issues and above all the exchange of knowledge and experience from research to practice and vice versa. More than 60 speakers and a lot of posters will represent the thematic diversity of active mobility.

Bridging the Gap

International researchers and practitioners will be meeting to discuss the role of active mobility in the modern world, and will include academic, political and practitioner led thinking strategies. A cutting-edge format will bring together representatives from both research and practice and present active mobility as a sector of action and research.

200 years of cycling

In 1817, Karl Drais invented the bicycle in Mannheim. Celebrate the 200th anniversary with us in its hometown by joining the International Cycling Conference 2017. Experience numerous bicycle activities as well as projects throughout the city, meet like-minded cycle enthusiasts, researchers and practitioners from around the world and contribute to shaping the next 200 years of active mobility.

Partners

PHYSICAL ACTIVITY THROUGH SUSTAINABLE TRANSPORT APPROACHES

ifU
German Institute of Urban Affairs

GIZ
German Federal Institute for International Cooperation and Development

STADT MANNHEIM

Scientists for Cycling

ENECF
EUROPEAN CYCLISTS' FEDERATION

ECF – Scientists for Cycling – The Scientists for Cycling network connects researchers, research plans and scientific based publications on cycling or cycling-related matters to other scientists, to professionals and to volunteers who work on cycling, contributing to ECF's mission: to improve and to increase cycling.

THE PEP
Transport, Health and Environment Pan-European Programme

THE PEP – THE PEP – run jointly by UNECE and the WHO Regional Office for Europe – offers a platform that brings together the three sectors of Transport, Health and Environment (THE) in a Pan-European Programme (PEP). It develops cutting-edge interdisciplinary knowledge and enables best-practice sharing between countries.

Facets

Organiser: German Environment Agency / Umweltbundesamt

Since its founding in 1974, the UBA has been Germany's main environmental protection agency. Read more about us here: <https://www.umweltbundesamt.de/en>

Contact: Content-related: Dr. Katharina Grall, ICC2017@uba.de, Tel. +49 (0)340 2103-2906 **Organizational matters:** Leopold Brötzmann, broetzmann@velokonzept.de, Tel. +49 (0)30 311 65 14-17

Date: 19 – 21 September 2017

Conference language: English

Registration & more information:

➤ www.uba.de/en/icc2017

Venue: Baroque Palace, Schloss Mittelbau Bismarckstraße, 68161 Mannheim, Germany

How to get to the venue: With public transport from Mannheim Central Station it is a 10 minute walk or take the tram line 1, 5 or 7 to the stop "Schloss". By bike: ICC participants can reserve a complimentary bicycle rental with registration. The Bicycles can be picked up directly at Mannheim Palace and be used free of charge for the duration of the conference.

Please note that the number of rental bicycles is limited. **By car in Mannheim:** Follow the signs: parking options are in the University / Cafeteria (Mensa) parking garage, access via Bismarckstraße.
